As an Industry Principal, Sean works with operators to drive innovation in property management. He stays ahead of technology and market trends, regularly speaking on how operators can leverage these insights to thrive in their markets. Previously, Sean led the product launches for the AppFolio Stack™ marketplace, AppFolio Property Manager Max, and AppFolio's embedded generative AI solution, Realm-X.

Beyond AppFolio, Sean volunteers with NAA's Next Gen Committee and AI Workgroup and mentors graduating students at his alma mater, Boston College. He lives in Santa Barbara, California with his wife and their increasingly insistent cat.
